Leaders in Leisure

Outdoor & Indoor Leisure Sports Equipment

Service with integrity

About Us

Established in 1984, Inco Mechel is one of the largest Indian companies in the field of capital equipment and consultancy for the sports and leisure industry. Part of the 50+ year old Allstate Group, Inco offers capital equipment for sports & leisure like Ten Pin Bowling Equipment, Snooker/Billiards & Pool Tables, Jet Water Crafts & Boats, Pedal Go-Karts, Paintball Equipment, Floating Jetties, etc. We also come on board as consultants for Family Recreation Centre (FRC) planning and design.

Inco pioneered the concept of FRCs by launching the sport of Ten-Pin bowling in the country. This has also given a boost to the leisure industry in general across the country. We source great products loved by kids and adults from different parts of the world. We have close tie-ups with established international brands, and strive to ensure we're delivering competitive products at all price points.

As a trusted, established brand, we enjoy lasting relationships with our principals and customers alike. We understand the concerns people have investing in capital equipment for the entertainment and leisure industry, and we take great care to both evaluate quality before offering internationally sourced products as well as provide prompt service and logistics across India.

Ten-pin bowling

Inco introduced the sport of Ten Pin Bowling in India, setting up the first bowling alley in Indore, Madhya Pradesh way back in 1995. Since then, we've set up over 30 projects across the country.

We provide end-to-end consultancy and project management, including equipment procurement, for setting up a bowling alley. We've worked with all the major brands associated with bowling alley equipment, and use our experience and expertise in the field to provide the best services and make sure the entire process from alley design to commencement is executed smoothly.

We also locate and carefully appraise used and refurbished equipment from various parts of the world to offer customers the choice, which can often prove to be very feasible.

BERG

Berg Pedal Go-Karts

We're an official, authorized distributor for BERG in India. BERG is a Dutch Company with over 30 years of experience in developing, producing and selling outdoor playtime products like pedal go-karts and trampolines.

With incredible in-house designs & co-brand tie-ups like Ferrari and BMW and very keen attention to detail, BERG is synonymous with high quality. Quality and safety are at the forefront of their culture, and they constantly strive to innovate and improve with a dedicated r&d department.

Their go-kart product ranges cater to kids of all ages as well as adults, and are fun to use as well as practical for travel in places like theme parks, corporate campuses, private estates, etc.

BERG go-karts appeal to individuals with access to open spaces for personal use, as well as to theme park owners/campus operators for leisure and transportation services. Many parks around the world are home to anywhere between 10 to 300 BERG go-karts, offered to patrons either on a free or rental basis. The rental model is a popular way to monetize these go-karts, with most operators breaking even their cost within 1 year.

Paintball

Inco has played a key role in popularising the sport in India, and given the fact that even 10-20 people can play at a time, many today actively seek out Paintballing venues. Paintballing is a fun, team-oriented activity, which is physically challenging and involves intricate strategizing. It's very popular as a corporate team building exercise as well, and gives working executives a chance to break their daily work routine.

We've supplied equipment all over India, to the private sector as well as national security agencies who use paintballing for light training exercises.

We've tied up with some of the world's biggest Paintball equipment manufacturers and supply all over India. We carry every single type of equipment and support material associated with Paintballing, like markers, pellets, CO2 tanks, etc. and all our products meet international quality standards.

Vehicle

Locomo (SBV)

Locomo is a self-balancing, two-wheeled Personal Transport Vehicle. This vehicle is agile, nimble, can rotate 360 degrees on the spot and transport its rider at speeds up to 15 kmph – quick but not enough to be dangerous. The rider controls the vehicle's direction & speed using the handlebar and forward/backward motion & speed using weight distribution on the vehicle's standing platform. Locomo is also fully electric, making it eco-friendly with zero emissions.

Locomo's most common applications:

- Individual Transportation
- Security Patrolling
- Tourism
- Intra Facility transportation (Warehouses, Godowns, Factories, Shipyards)
- Amusement Rides In Malls & Theme Parks
- Hotel & Resorts
- Airports

Adventure Outdoor

We deal in a wide range of products for outdoor adventure activities, some of which are zorbing, off-roading, rock climbing, zip lining, ice skating, etc. We also offer bumper cars, trampolines, mechanical bulls and a big selection of other products sourced from all over the globe.

Indoor Family Recreation Centers (FRCs)

Inco pioneered the concept of Family Entertainment Centers with the introduction of Bowling Alleys in India in 1995. We offer services from concept to commissioning and have set up over 40 centers all over the country.

We offer a wide range of equipment like Ten-pin Bowling Alley, Billiard Tables, Video Games, Kids Play Systems, etc. as part of any FEC related project. Whether you want to set up a dedicated coin-operated video game zone, soft play areas for kids or a mix of different activities in your family entertainment center, we have the expertise to help you choose the right mix and plan your offerings.

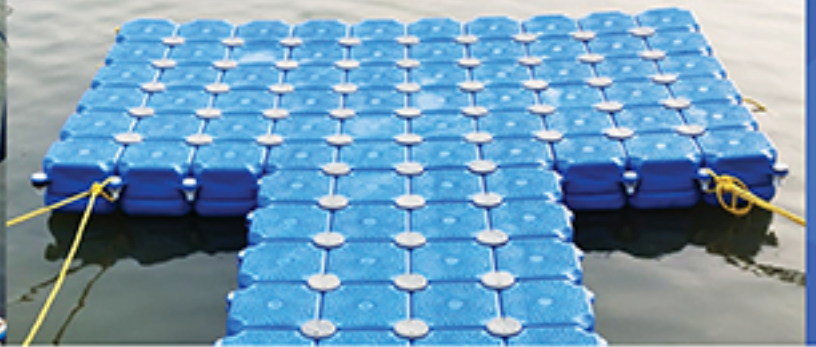

Boats & Watercrafts

We have an array of boats – new and used – available for sale. Based on your requirement, we'll find you the correct category and type of boat, from a trusted manufacturer, at the right price.

Some types of boats we offer are:

- Motorboats & powerboats
- Sailboats
- Personal Watercrafts (PWCs)
- Inflatables & RIBs
- Kayaks
- Catamarans

Incodock

Incodock, a brand by Inco Mechel Private Limited, is an installer of Modular Floating Jetties & Docking Systems usable on all types of water bodies. We manage turnkey floating construction projects by providing consultation & expert advice along with installation & maintenance of floating jetties, docks, etc. Our Floating Platforms are easy to setup and operate, and are eco-friendly and non-toxic in nature. Due to their properties and modular nature, our floating systems have been used in a number of innovative ways.

Incodock floating cubes are made up of the finest Virgin HDPE granules that strictly meet JAS-ANZ ISO 9001-2008 standards. They have considerable resistances to natural calamities and can withstand temperatures up to 110°Celsius. These cubes are also recyclable, offering residual value even after their purpose is served.

Some applications are:

Floating Dock/Jetty

Floating Bridge/Walkway

Material Transport

Floating Work Platform

Offshore Fish Farming
